

Be Safe

Stay clear of downed power lines

NEVER TOUCH A DOWNED POWER LINE.
Always assume it is energized and call 911 immediately.

POWERFUL STORMS can damage power lines. If you see a downed power line:

- Stay at least 50 feet away from it and assume it is energized. The ground may also be energized making the entire area extremely dangerous.
- Never touch anything that is touching a downed power line. It is as dangerous as the line itself.
- If a power line falls on your vehicle while you are in it, stay inside your vehicle until help arrives.
